

The Timber Trail Series

"D"-Style

10'W x 20'L

The *Timber Trail Series* is perfect for a home office or studio. Its log walls create a quiet retreat.

The Bear Lake Series

"D"-Style

12'W x 30'L

The *Bear Lake Series* is our #1 seller! It is great for any 3-season cabin with the butt-and-pass log corners, giving it that authentic log-cabin look.

The Redwood Series

"D"-Style

12'W x 36'L

The *Redwood Series* is our budget-friendly model, and is perfect whether you are skiing, snowmobiling, or ice fishing.

The Yellowstone Series

"D"-Style

14'W x 42'L

The *Yellowstone Series* is large enough for family outings, camping, fishing, or a peaceful retreat.

Chink-Style

10'W x 20'L

12'W x 30'L

12'W x 36'L

14'W x 42'L

The *Appalachian Series* comes chinked, and is hand-hewn for that authentic look. It is perfect for campgrounds or hunting camps, at the lake or for that rental or development project you have in mind.

The Appalachian Series

The Elk Creek Series

"D"-Style

12'W x 28'L

12'W x 40'L

The *Elk Creek Series* is unique in its own way. This cabin features trapezoidal windows on the front and back walls, which offer a bright and welcoming appearance.

The Pikes Peak Series

"D"-Style

14'W x 20'L

14'W x 30'L

14'W x 40'L

The *Pikes Peak Series* is a classic A-frame cabin. A style of the past! Once popular in campgrounds, and parks. Now you can enjoy this reimagined rustic cabin for yourself.

The Rivers Edge Series

"D"-Style

24'W x 24'L

24'W x 30'L

24'W x 36'L

24'W x 40'L

The *Rivers Edge Series* is a spacious modular cabin. Perfect for a lodge on the lake or along the river, or that group getaway.

D-Style

In cross-section, the shape of the *D-Style* log resembles a capital letter "D": the interior side is flat, while the exterior side is curved. The interior side allows studs to be installed directly against the logs. The rounded exterior side enhances that authentic log cabin look.

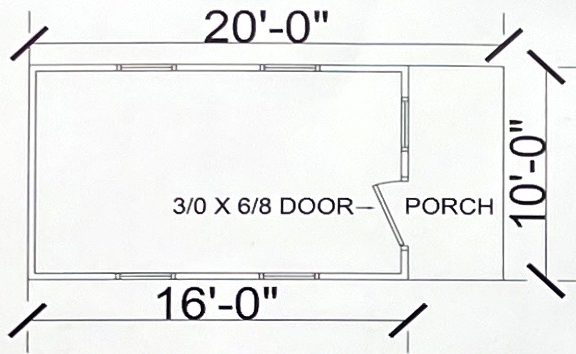

Chinking

Chinking is a sealant applied between the joints of log homes. It is a textured substance similar to mortar. It is very flexible, and can be used in place of caulk. Chinking keeps moisture out, and protects log homes from moisture-related damage.
