

Gable Shed

The "Gable Shed" is one of our most popular models. It is an ideal option for storing your ATV, zero-turn lawnmower, or golf cart! The Gable Shed also makes an excellent workshop, with higher sidewalls to give you ample room for adding shelves, workbenches, and even a small loft. If you are looking for a place to relax and tinker around in, or make space to finally get the car back in the garage, the Gable Shed is what you need!

CUSTOM SHEDS PLUS LLC

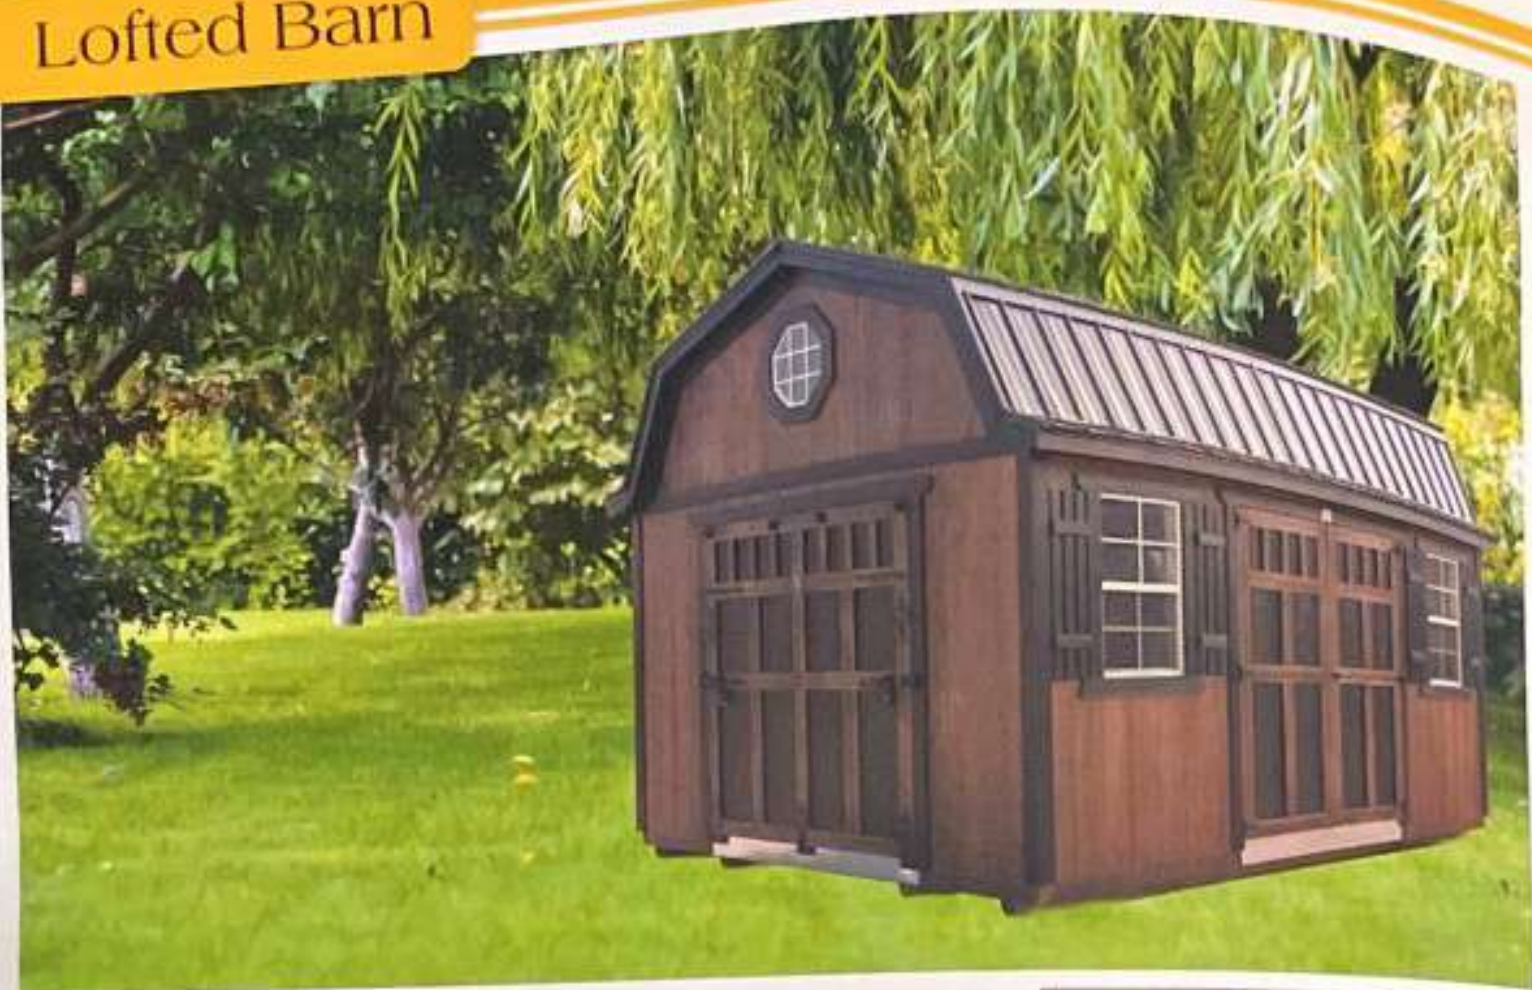

(Standard Model)

Painted Model Includes:

Standard Features of the Gable Shed

- LP Smartside with Silvertex Radial and Barrier
- Painted to Your Choice of Siding & Trim Colors
- Metal Roof with Condensation Barrier
- Modern Double Doors
- 7' 8" Sidewalls
- 2' x 6' Floor Joists
- 2' x 4' Floor Joists On 8' Wide

Lofted Barn

The "Lofted Barn" is a widely known favorite! Its traditional barn shaped roof brings the classy backyard appearance many love. The spacious loft gives you ample opportunity to store all your small seldom used items up high, freeing your floor space for larger items. The phrase we hear repeatedly is, "Ah, my Christmas stuff can all go up there!" The split lofts, one on each end, are a very popular choice, giving you a "his & hers" option!

CUSTOM SHEDS PLUS LLC

(Standard Model)

Garden Shed

The Garden Shed model is an extremely functional design. This is a great option for storing gardening tools and equipment, backyard supplies and much more. This design is more than just storage though, allow it to become the centerpiece of your backyard! The Garden Shed model allows you to create an outdoor oasis where you'll feel more comfortable than ever in your backyard.
